Education

UPES, Dehradun

M.Des. Product & Industrial Design | 2024 to 2026

Chitkara University, Patiala

B.Des. UI/UX Design | 2020 to 2024

Work Experience

Freelance Product Designer | Fitness Coaching Client (NDA) | May 2026 to Present

- Designed a premium fitness coaching app across home, workout, nutrition, progress and coach communication experiences.
- Built a scalable design system with reusable components, tokens and interaction states.
- Created AI assisted functional MVP prototypes using Claude Code, Next.js and Tailwind.

Freelance Product Designer | Structurology | Jul 2024 to Nov 2024

- Designed and delivered a 12 page product website from discovery through deployment within four weeks as the sole designer.
- Conducted UX audits, identified 15+ usability issues and extended the design system.
- Produced responsive designs and detailed Figma specifications.

UI/UX Design Associate | Ikarus 3D & Ikarus Delta | Sep 2023 to Jul 2024

- Redesigned information architecture contributing to a reported 60 percent increase in conversion.
- Designed a VR web experience from concept to launch.
- Led user research, journey mapping, prototyping and usability testing.

University Projects

AI Career Companion

- Created personas, information architecture, user flows and prototypes for an AI driven career guidance platform.

Modular Outdoor Seating System | Wipro Industry Collaboration

- Designed a modular outdoor furniture system through user research and ergonomic evaluation.
